

How to manage or customize Header part?

Introduction:

In information technology, header refers to some combination of text and images that can be made to appear at the top of each page when displayed. In the header part you can display your company logo and contact number from where your customers can recognize your company and communicate with your company. You can also change the header part location wherever you want or else you can remove the header part if you want and this option is completely depending on your choice. In STEP-1 & STEP-2 you can see there is an indicated box under Top Bar that is known as header part.

Please follow STEP-1 & STEP-2

[STEP-1](#)

The screenshot shows the top section of a real estate website. A green banner at the top contains a star icon and the text "STEP-1 The indicated box shown below are frontend top bar & frontend header part." Below this banner is a navigation bar with links: "Welcome to Realestate CMS | Sign in | Register", "My Account | Login | Agent Registration | Feedback | Sitemap | Contact Us", and "English - United States" with a dropdown arrow. The main header area features the "RealEstate" logo with the tagline "BUYING SELLING LETTING" and the word "SCRIPT" above it. To the right of the logo is a phone icon with the number "+8888800000" and the text "24/7 Live Customer Service". Below the phone number are two buttons: "51 Listings" and "+ Add your Property". A green navigation bar below the header contains tabs: "Top Bar", "LATEST PROPERTIES / BUY", "Header Part" (highlighted with a callout box), "POST REQUIREMENT", and "GALLERIES". The main content area is divided into "PROPERTY SEARCH" and "Search Agent/Landlord". The "PROPERTY SEARCH" section includes fields for "Property Name", "Post Code", "Type", "Price", "Price (MIN)", "Price (MAX)", "Category", "Country", "State", "Area", "Room(s)", and "Bathroom". The "Search Agent/Landlord" section has a "I want to search:" section with radio buttons for "Agents" and "Landlord", a "Select City:" field, and a "SEARCH" button. On the right side, there are two promotional boxes: "BUY PRICE" with a house icon and "SELL PRICE" with a "FOR SALE" sign icon. A "NOTES!" banner is visible in the bottom left corner of the screenshot.

[STEP-2](#)

Now in this part we will like to explain you that from where you can get your file location of header part and how you can edit it. Here in STEP-3, STEP-4 & STEP-5 you can see the location path of header and if you want to edit your header part then you have to edit with Notepad or Dreamweaver. In this part there are some codes in between of starting and ending point. Please take a look at this below image; here you can see there is a logo code, support code, property listing count code & add your property button code. At this point you can edit your logo code, support code, property listing count code & add your property button code to do any changes as per your company's point of view. You can access this process if you have any changes mentioned in above discussions.

Please follow STEP-3, STEP-4 & STEP-5

STEP-3 This tutorial is explain how to manage and customize header part.

This is Header Source File

Edit with Dreamweaver

This is Default Template Folder Path

NOTES ! LOCATION PATH : /<\$ServerPath>/application/layouts/scripts/<\$realestate_default>/header.phtml

STEP-4

STEP-4 This tutorial is explain how to manage and customize header part.

```

<header id="header">
  <div class="container">
    <div class="logo">
      <a href="#">
    </div>
    <div class="support">
      <?php $this->ad(177); ?>
      <?php
        $properties = new Prop
        $listings = $propertie
      >>
      <span class="listing-count"><span class="no"><?php echo $listings; ?></span> <?php echo $this->translator->tra
      <span class="listing"><a href="<?php echo $add_url; ?>"><span class="icon"></span><?php echo $this->translator
    </div>
  </div>
</header>

```

This is the start point of Header

This code is represents business logo

This is the advertising code for business number & (177) is advertising category ID

This is the ending point of Header

NOTES ! LOCATION PATH : /<\$ServerPath>/application/layouts/scripts/<\$realestate_default>/header.phtml

STEP-5

STEP-5 This tutorial is explain how to manage and customize header part.

```

<header id="header">
  <div class="container">
    <div class="logo">
      <a href="#"><?php //echo $this->translator->translator('header_logo',' ', $front_template['theme_folder']); ?></h1>
    </div>
    <div class="support">
      <?php $this->ad(177); ?>
      <?php
        $prope
        $listi
      <?>
      <span class="listing-count"><span class="no"><?php echo $listings; ?></span> <?php echo $this->translator->tr
      <span class="listing"><a href="<?php echo $add_url; ?>"><span class="icon"></span><?php echo $this->translato
    </div>
  </div>
</header>

```

NOTES 1 LOCATION PATH : /<\$ServerPath>/application/layouts/scripts/<\$realstate_default>/header.phtml

How to change a logo?

A logo is a graphical mark used to identify a company, organization, product or brand. Logo can be displayed along the side or in place of a company's name to generate awareness of company's association with a particular product or service. This particular graphic may be used for styling the version of the company.

In this illustration we will explain you that how you can change your Logo. All you need to do is directly login to the admin panel and then upload you logo or image from global settings. Please follow STEP-6, STEP-7 & STEP-8

[STEP-6](#)

STEP-6 Admin login as follows.

This is Admin Login Path

Admin Username & Password

Click Here to Login

NOTES! The web interface is to log on to Administration Panel - <http://www.yourdomainname.com/Administrator>

[STEP-7](#)

STEP-7 How to change your business logo.

Click Here To View Global Settings

This is Admin Top Menu

NOTES! Dashboard => Top Menu => Select - SITE => Than Click - Global Settings => To View Global Settings Manager.

[STEP-8](#)

STEP-8 How to change your business logo.
